

Brian P. Gay

President

As Think Forward Consulting's President Brian is responsible for leading the firm's overall service and product delivery. He founded the company in 2006. Think Forward Consulting is a company committed to using an Enterprise Architecture approach to improve client's operations. Brian has extensive experience in Enterprise Architecture, Cyber Security and IT Project Management. Brian is a Project Management Professional (PMP) and a Certified Information System Security Professional (CISSP). Brian is the co-chair of the Northern Virginia Technology Council's (NVTC) Cybersecurity and Privacy Committee, a member of the Military Order of the Carabo and Armed Forces Communications and Electronics Association (AFCEA). He regularly blogs on Enterprise Architecture and Cyber Security related topics. He holds a Bachelors of Business Administration in Finance from James Madison University.

Brian has worked with the numerous federal and commercial clients. He is currently leading Think Forward's development effort for several security related products targeted at small and medium sized businesses.
