

David McGill
Vice President, Enterprise & Cybersecurity Solutions
ICF International

David McGill brings 30 years of experience in public and private sector work to his role as ICF International's vice president of strategy and business development for enterprise cybersecurity solutions. In this role, Mr. McGill works with input from clients, partners, and other ICF organizations to help craft ICF's strategic direction for cybersecurity and is responsible for all the business development, sales, and marketing activities that contribute to its tactical execution.

Previously, Mr. McGill held executive positions with leading information technology and consulting companies, including director of sales and marketing for Capgemini Government Solutions and director of business development for EDS Federal.

Mr. McGill holds a bachelor's degree from the University of Minnesota and is a member of several trade associations, including CompTIA/TechAmerica, Professional Services Council, Armed Forces Communications and Electronics Association, and American Council for Technology / Industry Advisory Council.
